# WELCOME

to the 2026  
Benefits Open Enrollment

## Open Enrollment December 8th - 19th

At MGM Healthcare, we offer our employees a competitive and comprehensive benefits program. This is one of many ways we recognize how important you are to the company. This benefits guide briefly summarizes our program in a quick and easy-to-understand way.

## How to Enroll

**Call Center:** Call 314.997.3835 8am - 5pm, Monday - Friday to speak with a licensed benefit counselor.

**Online:** Visit [chubb.benselect.com/enroll](https://chubb.benselect.com/enroll).

Your username is your full social security number. Your PIN is the last four digits of your social security number, followed by the last two digits of your year of birth.

This year, Open Enrollment is Passive. If you do not call the enrollment center to make changes to your benefits, your current elections will roll over to the new plan year. If you would like to enroll or make changes to your benefits, please call 314.997.3835 before 5pm on December 19th.

## Who can enroll in benefits

### Employees

You may enroll in the benefits program if you are a regular full time employee who is actively working a minimum of 30 hours per week. You are eligible for benefits as of the first of the month following 60 days of active service.

### Dependents

Eligible dependents generally include your legally married spouse and children up to age 26. Some age limitations may apply to certain insurance programs. Please review your plan documents carefully for more details.

### Eligibility Documentation

Please be prepared to share dependent eligibility information during enrollment, including each enrolled dependent's date of birth and Social Security Number. Other documentation may be required depending on your benefit elections.

## Changing Your Coverage

Once you make your election for enrollment you will not be able to change your elections until the next annual enrollment, unless you experience a qualifying event. A qualifying event is a change in your personal life which may impact your eligibility or dependent's eligibility for benefits. If you experience a qualifying life event, you will have 30 days to notify Human Resources in order to make changes to your benefit elections.

Examples of some qualifying events include the following:

- Change of legal marital status (e.g., marriage, divorce, death of spouse, legal separation)
- Change in number of dependents (e.g., birth, adoption, death of dependent, ineligibility due to age)
- Change in employment or job status

# Important Medical Insurance Terms

## Deductible

The amount you pay for covered health care services before your insurance plan starts to pay. After you pay your deductible, you usually pay only a copay or coinsurance for covered services. All copayment and coinsurance costs shown on page 8 are after your deductible has been met, unless otherwise noted.

## Coinsurance

The amount or percentage that you pay for certain covered health care services under your health plan. This is typically the amount paid after a deductible is met and varies based on the plan design and if you are in or out of network.

## Out-of-Pocket Maximum

The most you have to pay for covered services in a plan year. After you spend this amount on deductibles, copayments, and coinsurance your health plan pays 100% of the costs of covered benefits. Note that your maximums are separate for in and out of network care.

## In-Network & Out-of-Network

Care received from providers in the Anthem network is in-network, and uses the benefit amounts listed on page 8. If you go out-of-network for your care you are subject to different deductible, copays, coinsurance, and out-of-pocket maximum

## INSURANCE TERMS

**Coinsurance**—The plan's share of the cost of covered services which is calculated as a percentage of the allowed amount. This percentage is applied after the deductible has been met. You pay any remaining percentage of the cost until the out-of-pocket maximum is met. Coinsurance percentages will be different between in-network and non-network services.

**Copays**—A fixed amount you pay for a covered health care service. Copays can apply to office visits, urgent care or emergency room services. Copays will not satisfy any part of the deductible. Copays should not apply to any preventive services.

**Deductible**—The amount of money you pay before services are covered. Services subject to the deductible will not be covered until it has been fully met. It does not apply to any preventive services, as required under the Affordable Care Act.

**Lifetime Benefit Maximum**—All plans are required to have an unlimited lifetime maximum

**Network Provider**—A provider who has a contract with your health insurer or plan to provide services at set fees. These contracted fees are usually lower than the provider's normal fees for services.

**Out-of-pocket Maximum**—The most you will pay during a set period of time before your health insurance begins to pay 100% of the allowed amount. The deductible, coinsurance and copays are included in the out-of-pocket maximum.

**Preauthorization**—A process by your health insurer or plan to determine if any service, treatment plan, prescription drug or durable medical equipment is medically necessary. This is sometimes called prior authorization, prior approval or precertification.

**UCR (Usual, Customary and Reasonable)**—The amount paid for medical services in a geographic area based on what providers in the area usually charge for the same or similar service.

## MEDICAL TERMS

**Prescription Drugs**—Each plan offers its own unique prescription drug program. Specific copays apply to each tier and a medical plan can have one to five separate tiers. The retail pharmacy benefit offers a 30-day supply. Mail order prescriptions provide up to a 90-day supply. Sometimes the deductible must be satisfied before copays are applied.

**Urgent Care** for an illness, injury or condition serious enough that a reasonable person would seek immediate care, but not so severe to require emergency room care.

**Emergency Room**—Services you receive from a hospital for any serious condition requiring immediate care.

**Preventive Services**—All services coded as Preventive must be covered 100% without a deductible, coinsurance or co-payments.

**Medically Necessary**—Health care services or supplies needed to prevent, diagnose or treat an illness, injury, condition, disease or its symptoms, which meet accepted standards of medicine.
